The LEIPZIG-MOCKAU (N 52/E 21) airfield was unoccupied from 16 to 18 August 1949. The airfield administration building and some other brick and wooden buildings located on the western border of the field were intact. A police detail of about ten men was quartered in one of these buildings. Empty freight cars were standing on the spur track. The fuel tank installations at the southwestern corner of the landing field were demolished.
